

第三代 锡膏自动存储领用机 Solder Paste Storage Machine

自动存储·自动回温·自动搅拌·自动发料
Automatic Storage/Warm up/Stirring/Unloading

让制造 更智能

Make Manufacturing
More Intelligent

- 自动冷藏，回温、搅拌、发料，在线预约回温，锡膏超时自动报废
- 入料，冷藏，回温，搅拌，取料时间，冷藏温度等资料全程信息化管理
- 存储容量300/600罐,按照生产日期管控先进先出，支持多种锡膏
- 回温区容量 60 罐，支持多种锡膏
- 可同时搅拌1或2罐锡膏，并支持设定不同的转速和时间
- 操作员身份认证（密码），锡膏由专人管理
- Automatic storage/warm up/stirring/unloading ; Supporting on-line reservations for solder paste warm up and usage. automatic restore the rewarming solder paste while the working line stops.
- The system traces each bottle of solder paste info:time for loading/Refrigeration/warm up/Stirring/unloading/storage temperature.
- Storage capacity :300/600 cans.FIFO,according to production date. Supporting multiple solder pastes.
- Warm up zone capacity: 60 cans.Supporting multiple solder pastes.
- Stir 1 or 2 cans of solder paste at the same time.Supports setting different speed and time for different solder pastes.
- Operator Identity Authentication (Password),authorized person controls the solder paste.

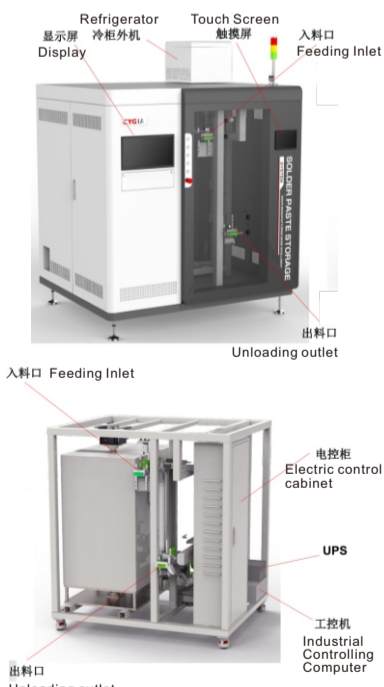

已获专利认证 Patent certification

基本功能 Function

基本功能 Function	数据跟踪 Data Tracking
支持锡膏全自动存储管理 Automatic storage management of solder paste	可对接MES/SFCS系统 Connecting MES/SFCS system
支持在线预约功能,确保锡膏出柜即可用 Online booking	冷藏温度等关键数据跟踪与存储 Tracking and storage of key data such as refrigeration temperature
冷藏、回温超时锡膏自动报废 Automatic scrapping for refrigeration/ warm up overtime solder paste	全过程扫码监控，做到每罐锡膏信息化管理 Scanning Monitoring of whole process to manage information of each solder paste

结构布局 Structure

基本参数 Parameter

参数 Parameter	描述 Description
设备型号 Model	CYGIA-SPSG3C300(300pcs)/CYGIA-SPSG3C600(600pcs)
设备尺寸 Dimension	1550(L)*1650(W)*1950mm(H) (300pcs) 2400(L)*1650(W)*1950mm(H) (600pcs)
净重 Net Weight	1000~1200kg (300pcs) 1500~1800kg (600pcs)
冷藏箱制冷量 Refrigerator Cooling Capacity	1500~2000W
冷藏箱制冷功率 Refrigerator Power	1500W
冷藏箱温度 Refrigerator temp.	1-10℃(可自由设定) 1-10℃(adjustable)
冷藏箱容量 Refrigerator capacity	300pcs/600pcs
回温区温度 Warm up zone temp.	18-28℃ (Room temp.)
回温区容量 Warm up zone capacity	45pcs

动作流程 Workflow
